During school hours on Monday and Tuesday Dr. Diana will meet with various student groups for discussions of their viewpoints.

The purpose of the institute is to give both adults and youth an opportunity for a better understanding of their problems in the student-teacher-parent relationships, according to Mrs. Elsworth Keen, PTA program chairman. "This is the first FLE Institute ever held in Pahokee and we intend to make it an annual event if enough adults participate in its free open forums. All parents of students are urged to attend both evening sessions during which a nursery for small children will be held by Mrs. Edna Maxson in her room at the elementary school for the convenience of those attending," Mrs. Keen said. Johnson to take the necessary steps to have a bill introduced in the 1959 Florida State Legislature authorizing the City of Pahokee to offer rewards up to but not exceeding \$500 for information leading to the arrest and conviction of persons guilty of destroying public property.

Two ordinances were passed at the meeting, one increasing the license fees for peddlers, and the other expanding the areas subject to the city's Fire Zone One regulations.

The Council approved plans for a 12 by 24-foot movable concessions building for Pahokee Harbor as drawn by John T. Pickett, Sr., in accordance to specifications submitted by a special committee composed of Building Inspector Frank Thompson, Mayor Dick Parrish and Councilman Charles Brown.

Eight-Day Revival For Pahokee Baptists

An eight-day revival will be held at the First Baptist Church in Pahokee, starting Sunday, Feb. 1, and ending Sunday, Feb. 8. Pat Wimberly is the evangelist.

Bids will be received by the Palm Beach County School Board on the 11th of February for a new cafeteria at Canal Point school, according to an announcement by School Board Member Thurmond Knight this week. School patrons have been looking forward for many months to this particular date, and actual acceptance of bids for construction of the new cafeteria will bring happiness to all parents of the school who have youngsters enrolled there.

Board Member Knight pointed out that the new cafeteria will be erected immediately east of the present little building used as a cafeteria, thereby not interfering with meal serving during days of construction. The new structure will be of the most modern architecture and will be equipped with modern means for serving meals to the boys and girls in attendance at Canal Point school.

A bus loading platform will be erected on the cross street between SI: 15 and Lake Shore Drive, Mr. Knight said, in order that youngsters boarding buses will be kept out of heavy traffic. A covered walkway will also be erected from the east door of the present school building to the loading platform in order that the children will at all times be protected from the weather.

Members of the county school board are stretching their tax dollars to the limit in an effort to provide facilities for the ever-growing population of this great county. They are to be congratulated for exercising hard down horse sense in getting a dollar's worth of construction for every dollar spent. With the rapid growth of Palm Beach County, members of the board are going all out to see that youngsters are given the very best that the Florida educational system has to offer.

Mr. Knight and the immediate past chairman of the school board, Henry Earwood of Belle Glade, are expending every effort to see that the Glades area comes in for its fair share of new buildings while considering the county building program as a whole. These two gentlemen are certainly to be congratulated by Glades residents for the splendid job they are doing in behalf of the Glades and Palm Beach County.

Mr. and Mrs. H. J. Anderson and grand daughter, Miss Margaret Rose Kistner, of Pahokee were among the 90 persons who attended the annual Danish Party in West Palm Beach.

Sun Dance Will Send Float To Tampa

Seminole Sun Dance, Inc., the organization of the West Palm Beach Junior Chamber of Commerce which is sponsoring the Sun Dance celebration April 20-26 in West Palm Beach, has entered a colorful float in the famed "Parade of the Gasparilla Pirates," to be staged in Tampa at 1 p. m. Feb. 9. Norman R. Hart, Jr., general chairman of the Sun Dance, said Saturday.

The Sun Dance float is being designed and built by Robert L. Neal, chairman of the Jaycees float committee, with the assistance of nearly 12 Jaycees. The float will be about 40 feet long and eight feet wide, and will stress the theme of the Golden Anniversary of the organization of Palm Beach County.

A description of the float is as follows: Astride the float is a Seminole Indian canoe, covered with gold foil. Propelling the canoe is an Indian brave. In the canoe are several beautiful maidens atop oversized Indian drums. The stern of the canoe is a large sunburst. Rear of the float features a giant alligator head. The truck cab of the towing unit is artistically concealed by oversized sunflowers.

A delegation from the Sun Dance organization will accompany the float to Tampa, to attend the parade and witness "Ye Gasparilla Pirate Invasion," a short time before.

New Terminal Is Opened By Seaboard

ST. PETERSBURG — Seaboard Airline Railroad dedicated its modern new passenger terminal in St. Petersburg recently and terminated a 30-year campaign by the city to move the railroad's facilities out of the downtown area.

Seaboard President John W. Smith dedicated the new terminal to "the fine people of this area." The new terminal is the culmination of a friendly \$650,000 relocation agreement negotiated by the city and Seaboard.

The city acquired the new site, about two miles north of the old station, and constructed the depot, turning it over to the railroad in exchange for the old site and the downtown right-of-way.

Porpoises Travel To New York City

ST. AUGUSTINE — The porpoises at Marine Studios, on AIA near St. Augustine, are becoming "gad abouts."

Last month, two of the frolicsome creatures went by truck to New York. They returned on a train in time to see six of their brothers and sisters off on a 2,200-mile airplane ride to California.

The first two porpoises spent nearly two weeks in December splashing about in portable swimming pools during the "Florida Preview" show at the Coliseum. One of them also received a station wagon ride downtown to Madison Square Gardens for a television appearance on the Dave Carroway "Today" program.

On January 12, the other six porpoises took off from Daytona Beach aboard a Riddle Air Lines C-46 cargo plane bound for Marine Studios' sister oceanarium in California, Marineland of the Pacific.

The porpoises travel in specially-made "cribs," cushioned on foam rubber mattresses and wrapped in wet sheets. Being air-breathing animals they can remain out of

water for long periods so long as their soft skin is kept from drying out. The porpoises were out of water for over 30 hours, going and coming, on the New York trip, and about 17 hours on the flight to California.

Dr. and Mrs. R. R. Long had as a guest the past week their brother-in-law, W. R. Richmond of Liberty, Ind.

Mrs. Philo B. Williamson returned to her home in Canal Point Monday from Good Samaritan Hospital, West Palm Beach, where she was a patient for several days.

Pick your savings target and shoot straight for it!

A home... financial security... a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you *before* you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. *That means a return of up to 80% more than you originally paid.*

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2063 in cash; in 10 years, \$4488.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

For the big things in your life, be ready with U. S. Savings Bonds

Belle Glade To Present FSU Circus

There are tricks in every trade and Coach Jack Haskin of Florida State University has quite a few up his sleeve when it comes to costume designing. In nineteen years of amateur circus work, the professor of men's physical education has had to learn a great deal about costuming his performers. And he's employed every trick in designing the breath-taking wardrobe being used in the FSU annual circus.

Haskin and his crew of costume designers - all of whom are circus

performers as well as art students at the University, have been working all year in getting together the costumes for the 200 circus performers.

"The basic rules for good circus costumes apply to the wardrobe of any woman who wants maximum effect at minimum cost," says Haskin.

Clothes are first designed with a specific purpose in mind. The girl who does a back shirl on a revolving trapeze bar needs protection for her neck. So her costume, while it boasts a bare midriff, in front covers her back from shoulders to waist.

Versatility is another must in any wardrobe and Haskin has the answer to that problem. Such tricks as sleeves that snap onto sleeveless white midriff blouses, detachable skirts, a switch in blouses are all simple but effective camouflage to make a set of basic costumes do the work of a bulging wardrobe. Each of the circus acts appear to be in different color combinations but actually the same costumes see action over and over again throughout the performance.

Believing that clothes ought to be of the best possible material and workmanship to be really economical, Haskin's circus costumes are well made to last many years with simple alterations. All of the costumes are well made for a sudden ripping seam might spoil an act as well as embarrass the performer. Biggest headaches are broken zippers.

Firm, bright iridescent satin to flimsy tulle and chiffons, every color of the rainbow can be seen in the sequin and glitter-bedecked costumes. An not only are they lovely to look at but they're practical and economical as well.

Major County Offices Return Excess Fees

Major county offices which operate under the fee system have turned in funds in excess of \$243,000—an increase of nearly \$18,000 over last year's mark, the county commission was told Monday.

R. B. McKee, commission comptroller, said fees were about \$17,000 more than had been estimated in setting up revenue for the county's current operating budget.

Major fee reports listed by McKee show J. Alex Arnette, clerk of the circuit court, \$13,230; R. P. Robbins, county judge, \$14,009; F. A. Currie, judge of the small claims court, \$11,357; J. Louie Carter, clerk of the criminal court, \$41,008; James Owens, tax assessor, \$93,547; Stetson Sproul, tax collector, \$69,834 and Sheriff John Kirk, none.

McKee explained the sheriff's office now operates on a budget system and no longer turns in excess fees. He also noted the amounts turned in by Carter was more than \$20,500 less than was turned in last year.

Christian Science Group Of Canal Point

How spiritual understanding of God as divine Love promotes true brotherhood will be brought out at Christian Science services Sunday. Scriptural selections to be read in the Lesson-Sermon entitled "Love" include this one (I John 4:21): "And this commandment have we from him, That he who loveth God love his brother also."

Readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include the following (518:15): "The rich in spirit help the poor in one grand brotherhood, all having the same Principle, or Father; and blessed is that man who seeth his brother's need and supplieth it, seeking his own in another's good."

The Golden Text is from I John (4:8): "He that loveth not knoweth not God; for God is love."

Special SRD Meets For Legislators

Legislators have been invited to attend a series of orientation meetings in the state's five Road Department Districts during February to acquaint them with local and statewide road problems and activities. It was announced today by Joe Grottegut, Board Chairman. Invitations to the meetings have been issued to legislators by the various Board members who will be responsible for the "get acquainted" gathering in each of the Road Districts.

Grottegut said, in announcing the meetings, that "the Road Board recognizes our legislators are daily faced with innumerable questions regarding all phases of road building, financing and operations and this appears to be the most efficient way of providing the answers."

He said that the meetings will be conducted by the Board members in the Districts and that legislators representing the counties in each district have been invited.

William Singer, Fourth District Board member, will conduct his meeting at the Columbus Hotel in Miami on February 20 at 10 a. m.

Mr. and Mrs. Lou Lombard of Miami spent Sunday in Canal Point visiting her parents, Mr. and Mrs. J. H. Miller, making the trip by plane.

Make your dream house come true! It's easy
—through Payroll Savings!

If you think you can't own the home of your dreams because the down payment's too steep, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment—for a house or any large purchase.

Just do this: Sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving automatically—nothing to worry about, nothing to do. And, best of all, the money saved out of your pay each week is automatically invested for you in U. S. Series E Savings Bonds.

Because Savings Bonds earn solid interest—3%, compounded semiannually when held to maturity.

—the few dollars saved from your pay each week soon grow into big generous amounts. For instance, if you sign for \$12.50 a week, in just five years you'll have \$3,348.95 cash. In 9 years, 8 months, you'll have \$7,117.20!

So don't let down payments get you down. Meet your needs for ready cash the way more than 8 million other Americans are meeting theirs—join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you bank. Start now to make your dreams come true!

If you want your interest as current income, ask your bank about Series E Bonds, which pay dividends monthly by Treasury check.

Choose your own savings goal

	If you want approximately

This chart shows only a few typical examples of savings goals and the amount that should be saved each week. Remember, you can save any amount you want. For more information on the Payroll Savings Plan, ask your pay office or write to the U. S. Treasury Department, Washington, D. C. 20548.

Co. Commissioners Attend SRD Meet

County Commissioner Paul Rardin and Roy Michael are in Tallahassee this week to confer with State Road Board officials on a number of county road and bridge projects and to attend an opening of bids for road work which includes Palm Beach County projects.

Prior to leaving for the State Capitol, the commission this week, took action on several road and bridge matters expected to be brought to the attention of state authorities.

One of these—a request made by Commissioner Rardin—that the state road board study the traffic pattern on State Road 15 through Pahokee with the idea of making some changes to eliminate traffic congestion.

Rardin also won board approval for the engineering department to write Florida East Coast railroad officials in an effort to work out a drainage problem caused by the construction of an FEC spur line along the Farmers Market Road. Rardin said heavy rains and lack of drainage along the tracks, causes severe flooding of the highway, which has only recently been resurfaced.

On motion of Commissioner Michael, the board voted to institute condemnation proceedings to obtain right-of-way for an outfall ditch required in construction plans

for rebuilding Lake Worth West Road.

Michael also won approval of the board for resurfacing 10th Ave. North in Lake Worth from A St. to Congress Ave., acquiring an 80-foot right of way where possible and using the existing 60-foot right of way where construction might cause severe property damage.
